CYBER BULLYING TALK FOR PARENTS

19:00 WEDNESDAY 8TH FEBRUARY

Date: 18/01/2023

RE: **NEW Flu Vaccine Walk-in Clinics for Children Aged 2-17 this week**

We would like to thank schools for supporting the dissemination of these important messages and thank students, parents and guardians and the whole school community for their efforts in following public health advice.

All children aged 2-17 can get the free flu vaccine

The nasal flu vaccine is still available in Ireland for children aged 2-17. It is given as a spray up the nose, there is no need for an injection. It is a safe, easy and pain free way to help protect children against flu this winter.

The flu vaccine will also help reduce the spread of flu to others such as siblings, parents, teachers at high risk of flu complications (e.g. pregnant or long-term health conditions) and grandparents.

Additional Flu Vaccination Clinics

The HSE has set up additional walk-in flu vaccination clinics for all children aged 2-17 years.

A Global Centre for Research and Education on Bullying and Online Safety

DCU Anti-Bullying Centre is a University designated research centre located in DCU's Institute of Education. It is home to scholars with a global reputation as leaders in the field and hosts the UNESCO Chair on Tackling Bullying in Schools and Cyberspace.
